

Global warming and the emergence of ancient pathogens in Canada's arctic regions

Author(s): Oyugi JO, Qiu H, Safronetz D

Year: 2007

Journal: Medical Hypotheses. 68 (3): 709

Source: http://dx.doi.org/10.1016/j.mehy.2006.09.006

Resource Description

Exposure: M

weather or climate related pathway by which climate change affects health

Ecosystem Changes, Food/Water Quality

Food/Water Quality: Pathogen

Geographic Feature: M

resource focuses on specific type of geography

Arctic

Geographic Location: M

resource focuses on specific location

Non-United States

Non-United States: Non-U.S. North America

Health Impact: M

specification of health effect or disease related to climate change exposure

Infectious Disease

Infectious Disease: Foodborne/Waterborne Disease

Foodborne/Waterborne Disease: General Foodborne/Waterborne Disease

Resource Type: M

format or standard characteristic of resource

Policy/Opinion

Timescale: M

Climate Change and Human Health Literature Portal

time period studied

Time Scale Unspecified
